Mike Steward, spokesperson for the family of Sarah Widmer, requested the Warren County Prosecutor's Office release the following statement on the family's behalf:

"On behalf of my mother and our family we are relieved that the trial is behind us and that justice has been served for Sarah. Nothing we do will bring her back to us, but we feel we can now move on with our lives like Sarah would have wanted. We would like to thank the Warren County Prosecutor's Office for their diligence and hard work as well as the victim advocates for all of their support these past 2.5 years. No further comments will be made from our immediate or extended family. We request that the media respects this decision."
